

Computer Classes

The Active Living Centre offers a range of computer classes, from turning it on, to surfing the net, and all Microsoft Programs. Our intimate setting gives students one to one time with the instructor to maximize the learning experience. Classes are scheduled throughout the week in a classroom setting of four, or an option of personal tutorials. For more information, and to register for class and tutorial schedules, please contact Kelley in the program office (416) 733-4111 Ext. 12.
